SUPPLEMENTAL DECLARATION

Commissioner for Patents
PO Box 1450
Alexandria, Virginia 22313-1450

As the above named inventors, we hereby declare that:

1. We believe we are the original, first and joint inventors of the subject matter which is claimed and for which a patent is sought in the subject pending patent application.
2. We acknowledge the duty to disclose information which is material to the examination of this application in accordance with Title 37, Code of Federal Regulations, Section 1.56(a).
3. We hereby state that we have reviewed and understand the contents of the above identified Specification, including the claims and all amendments made thereto.
4. We hereby declare that the subject matter of all amendments aforesaid were part of my original invention and invented before the filing date as set forth above.
5. We hereby declare that we do not know and do not believe that the same was ever known or used in the United States of America before our invention thereof, or patented or described in any printed publication in any country before our invention thereof, or more than one year before said application, or in public use or on sale in the United States of America more than one year before the date of said patent application, that said invention has not been patented or made the subject of any inventor's certificate issued before the date of said application in any country foreign to the United States of America on any application filed by us or our legal representatives or assigns more than twelve months prior to said application in the United States of America, and has not been abandoned.

We hereby declare that all statements made herein of our own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
